# STANDUP
Fighting Cyberbullying
NEWSLETTER #4

A FEW WORDS ABOUT OUR PROJECT

"We are excited to announce the finalization of our STAND UP project and bring you the latest updates on the project.

STAND UP unites organizations from four different countries – Acción Laboral (Spain), INNOHUB (Spain), CWEP (Poland), DIAS VET (Greece), and Eurospeak Ltd (Ireland). The project's primary objectives include providing VET teachers with tools to address cyberbullying and raising awareness among VET students about the perils associated with it.

MULTIPLIER EVENTS:

Over the past few months, the project has focused on conducting multiplier events across partner countries. Engaging more than 150 VET teachers and students, these events served as platforms to disseminate the project's outcomes. Participants had the invaluable opportunity to delve into discussions surrounding cyberbullying in VET classrooms and share their experiences.

STAND UP APP:

We are thrilled to introduce the STAND UP app – an empowering tool designed to aid VET students and teachers across Europe in detecting, fighting, and preventing cyberbullying in both classroom and personal settings. Don't miss the chance to download this app, which serves as a comprehensive resource to tackle cyberbullying head-on.
